https://us04web.zoom.us wants to open this application.

Open Zoom

Cancel

If you already have the zoom 'app' on your computer and you click on the link for a meeting it will take you to a webpage and ask you to 'Open Zoom'

Otherwise it will prompt you to download and run Zoom

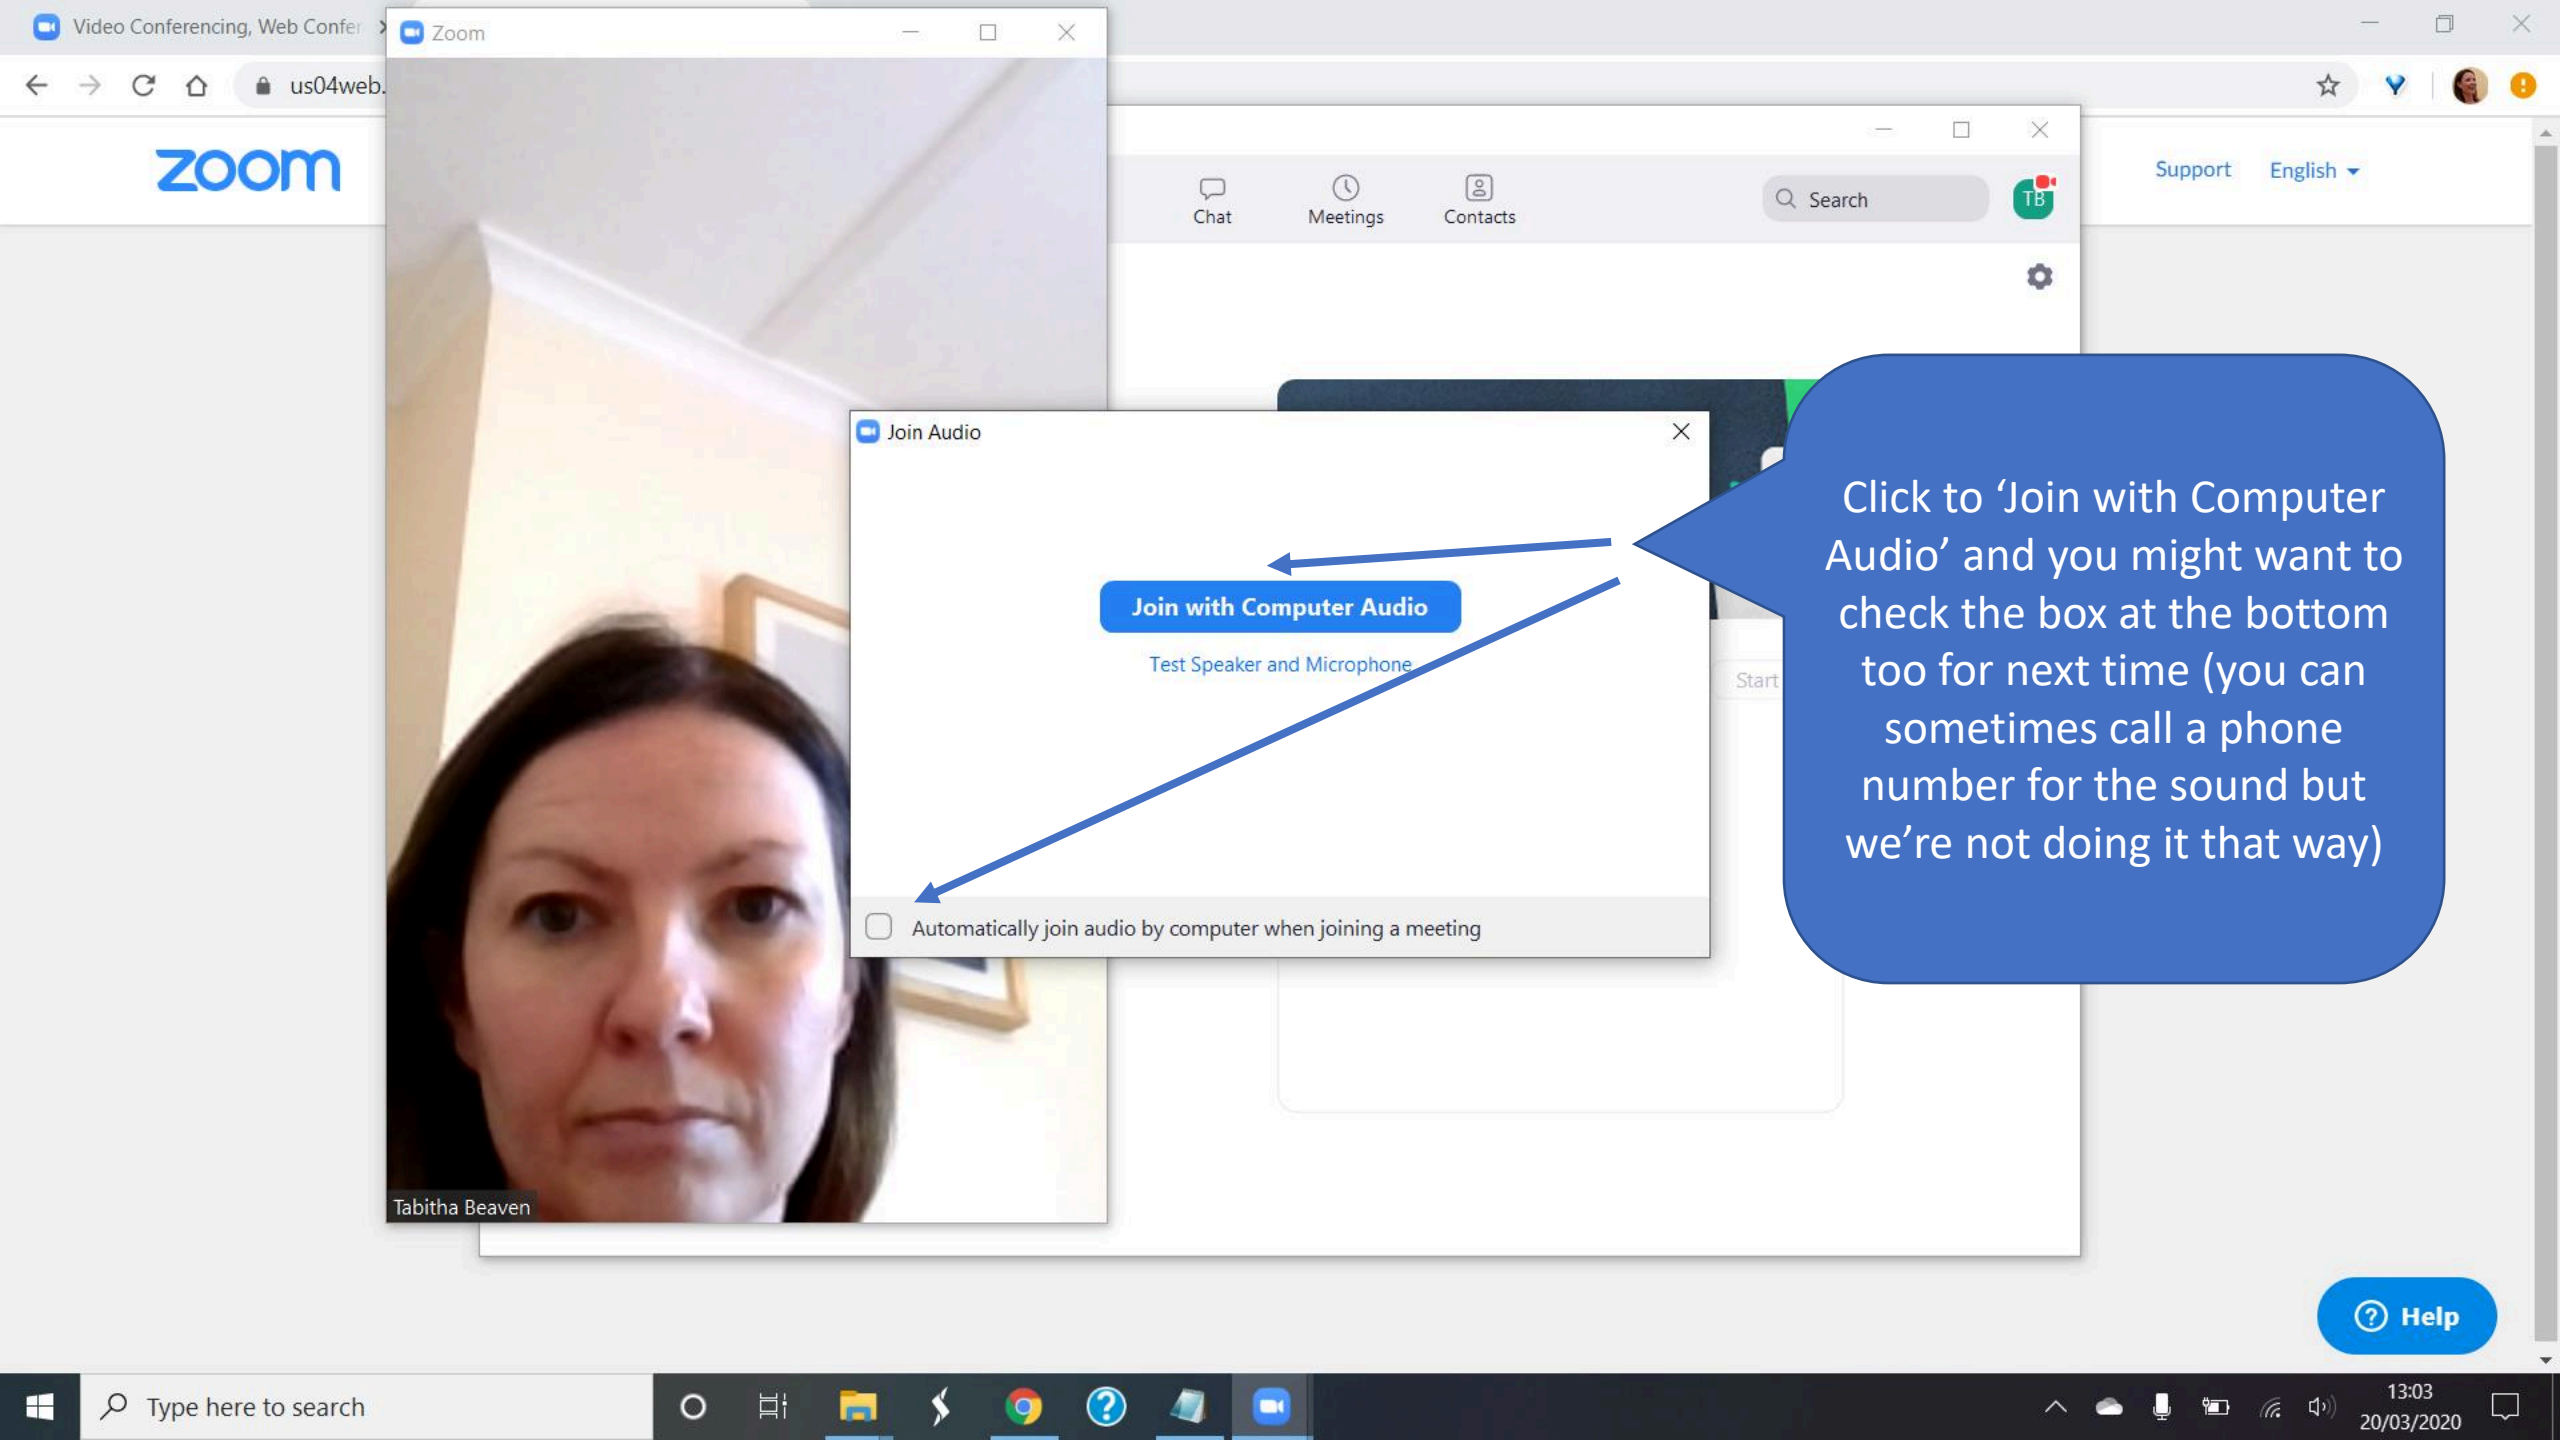

Launching...

Please click **Open Zoom Meetings** if you see the system dialog.

If nothing prompts from browser, [click here](#) to launch the meeting, or [download & run Zoom](#).

Join with Computer Audio

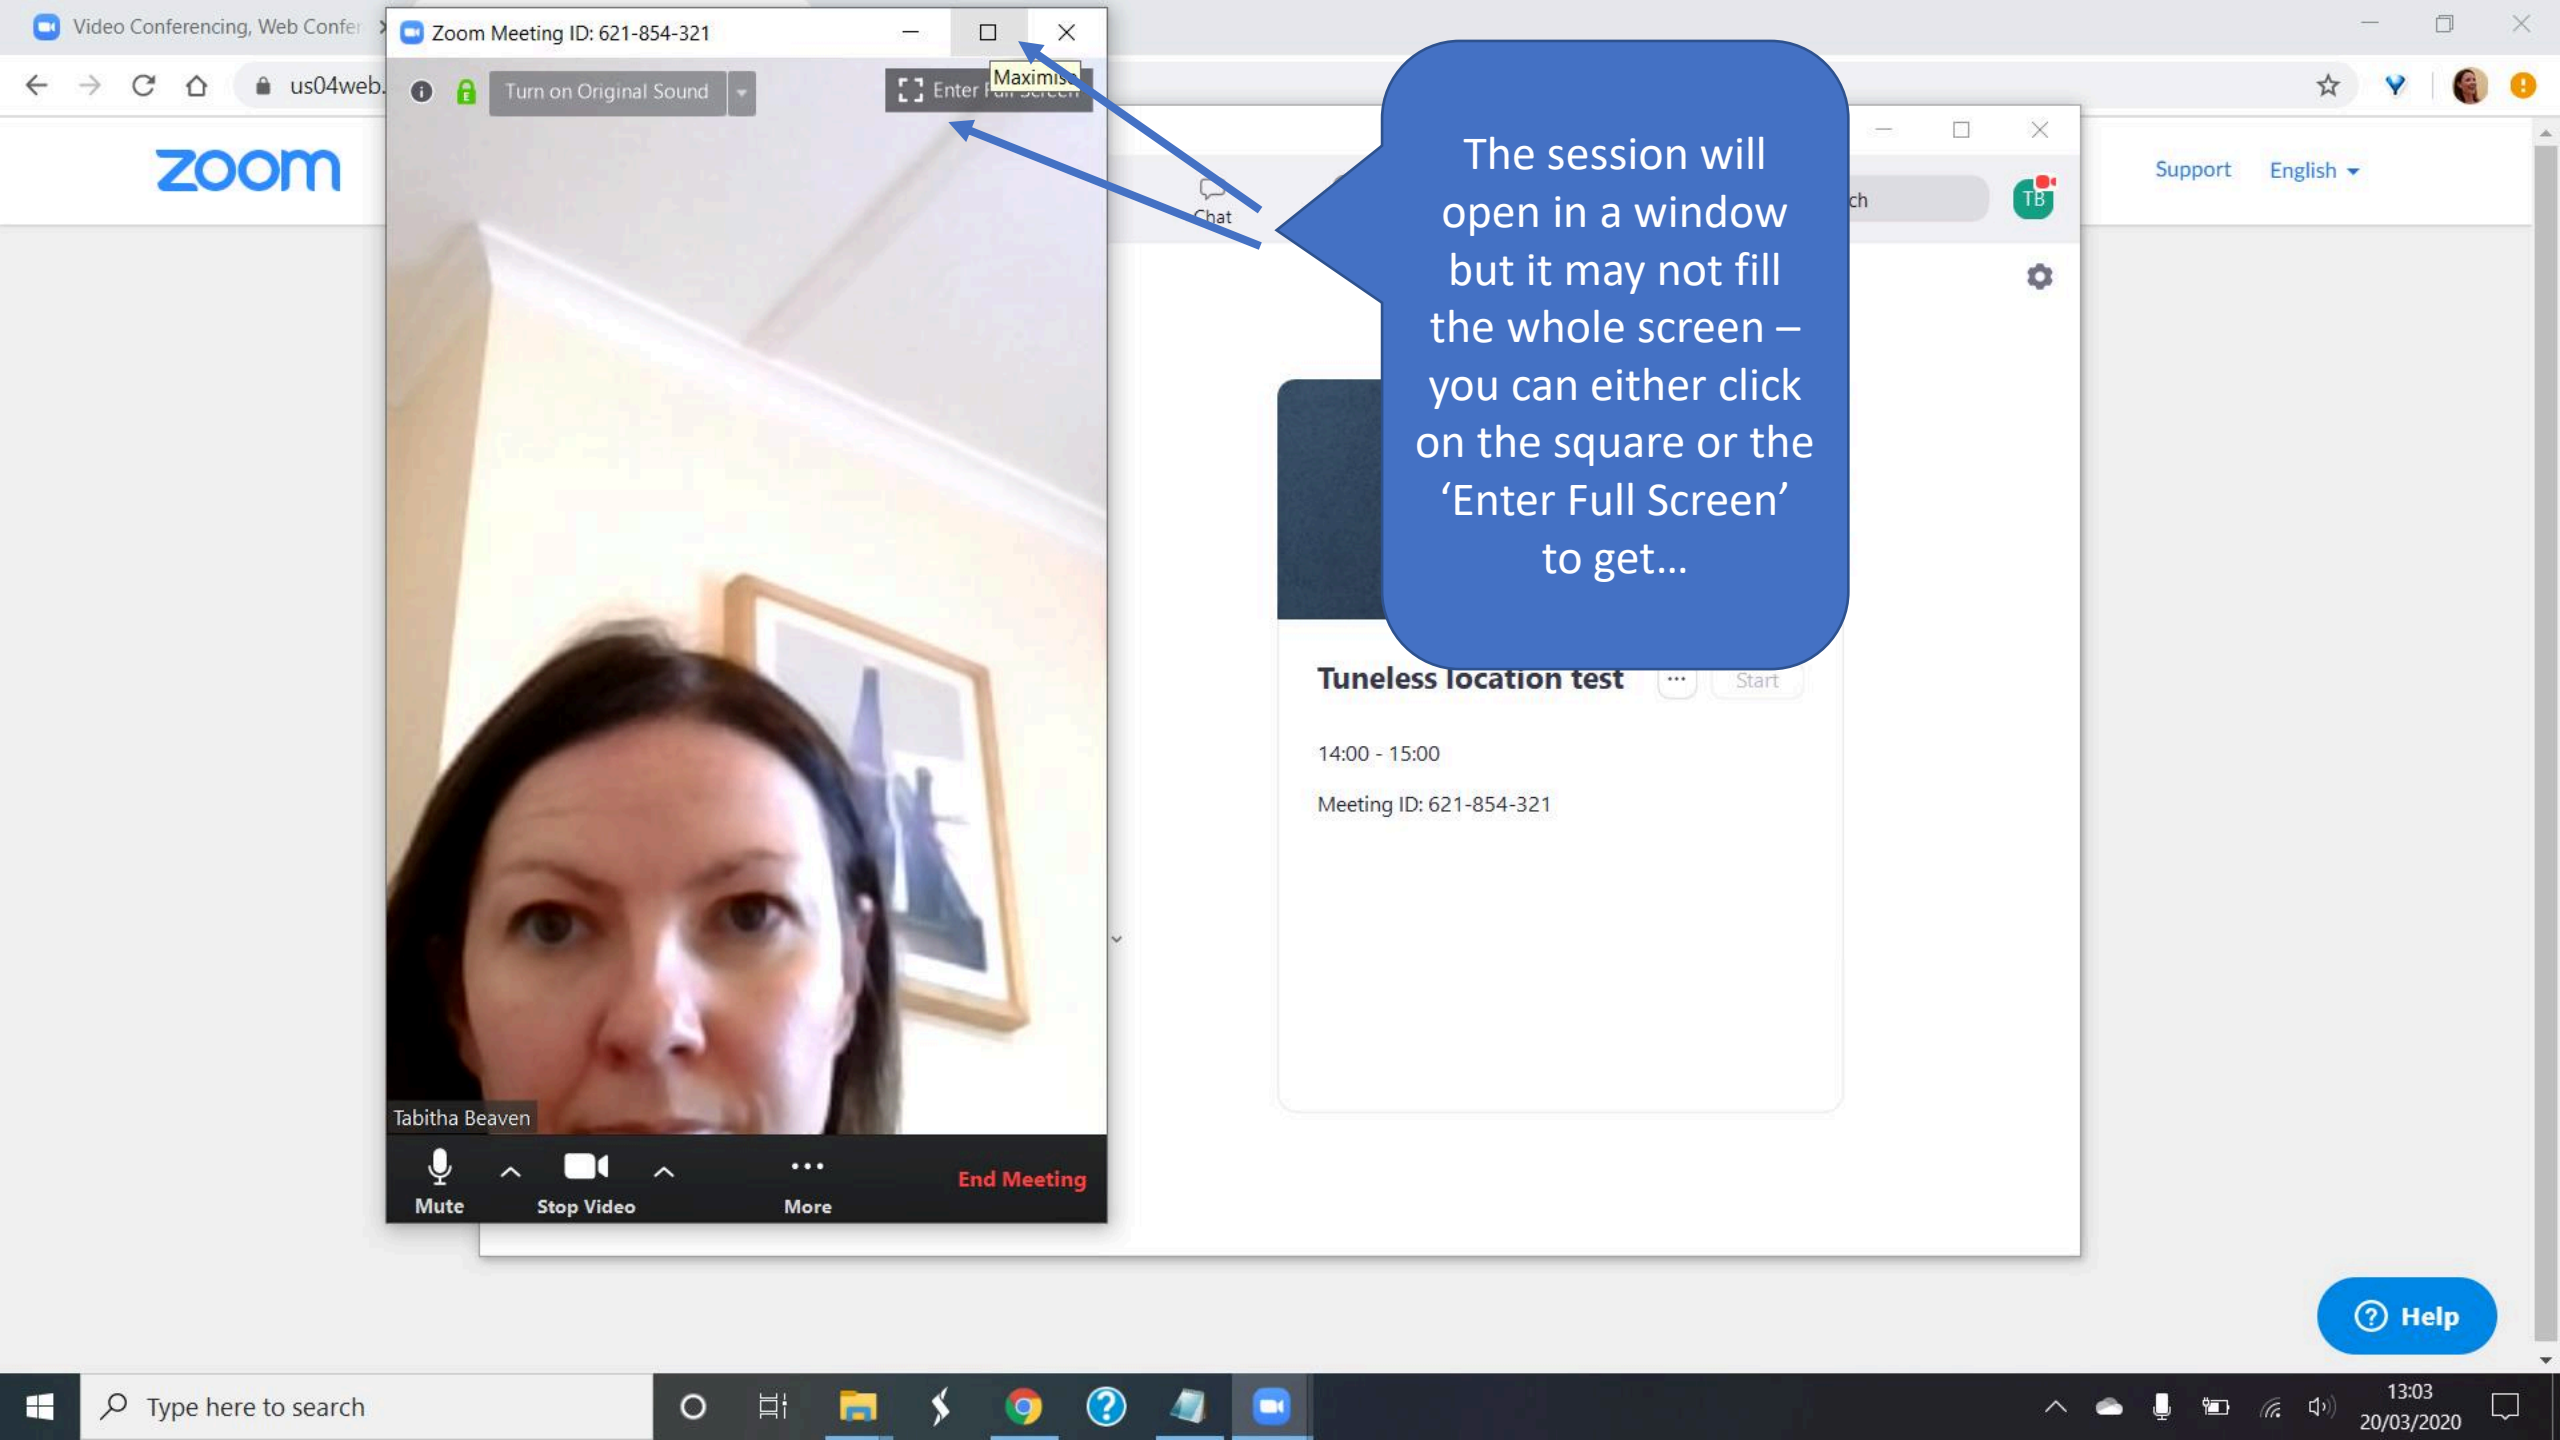

Test Speaker and Microphone

☐ Automatically join audio by computer when joining a meeting

Click to 'Join with Computer Audio' and you might want to check the box at the bottom too for next time (you can sometimes call a phone number for the sound but we're not doing it that way)

Help

13:03
20/03/2020

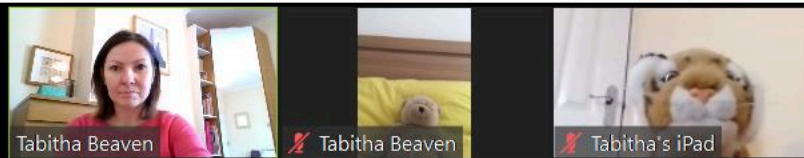

The session will open in a window but it may not fill the whole screen – you can either click on the square or the ‘Enter Full Screen’ to get...

Help

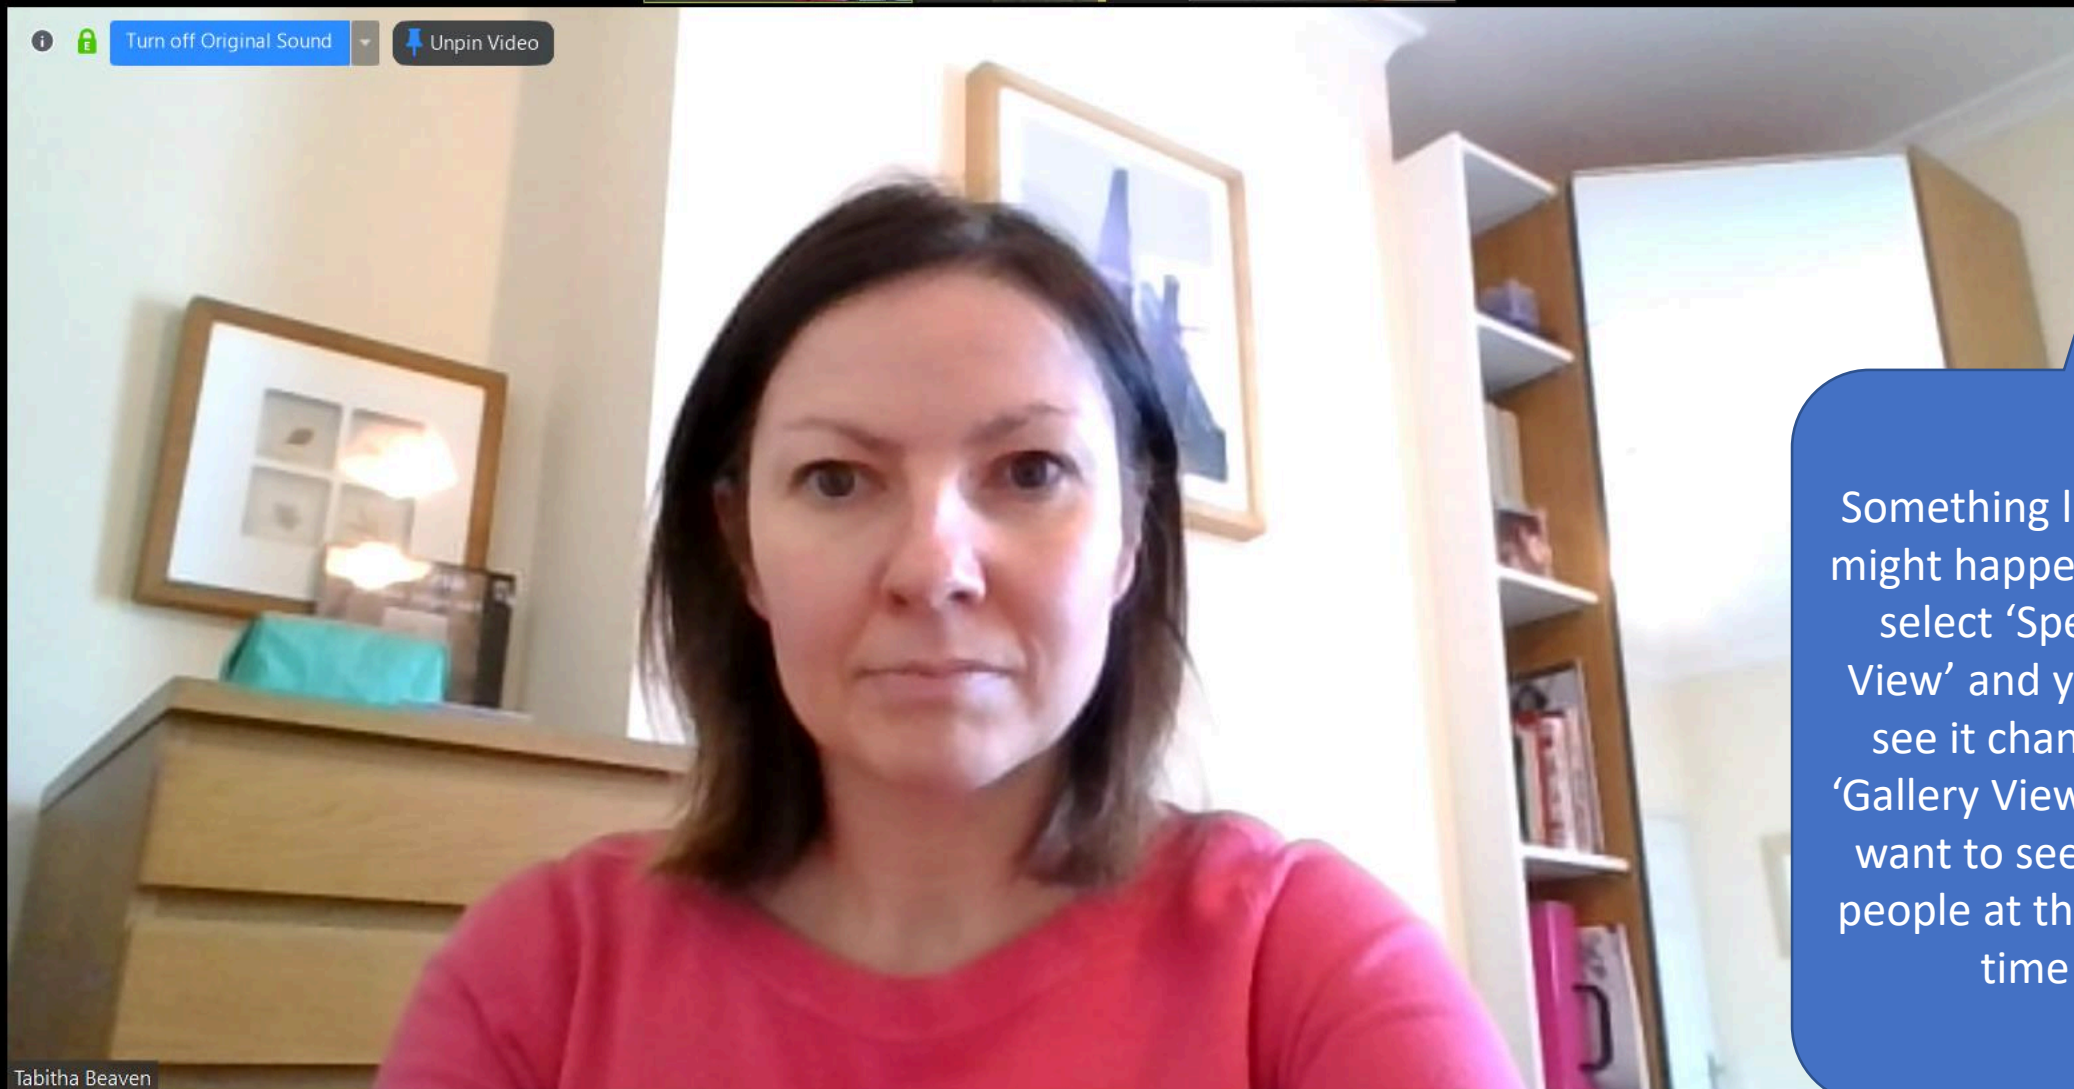

There's also some menus down here (you might not see them until you move your mouse in that direction)

Just to be confusing, sometimes the menu might be at the top of the screen so just explore a bit

Once you're in you may see a view like this or something different... this will either say 'Speaker View' or 'Gallery View' depending on which you're in – click on it and see what happens

Gallery View

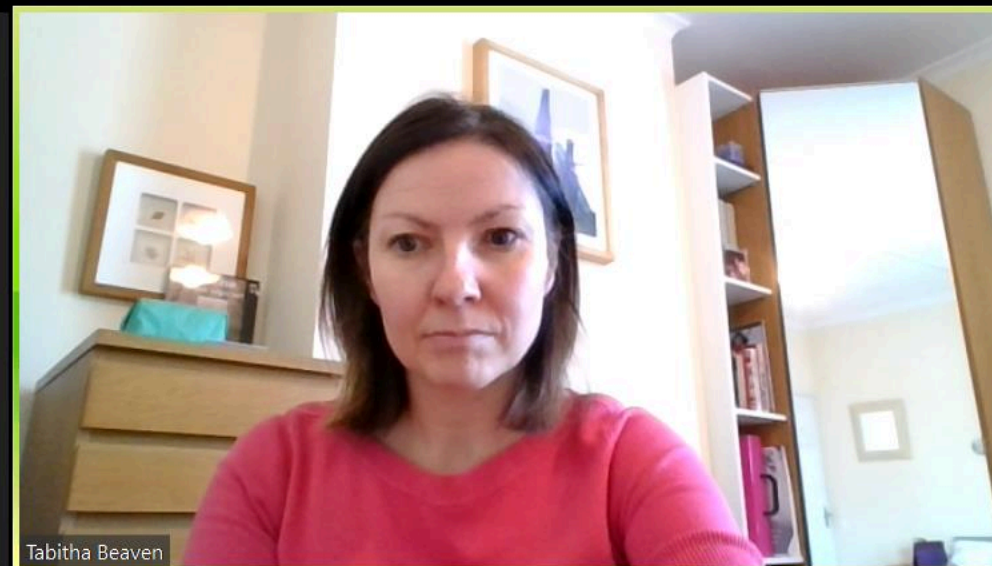

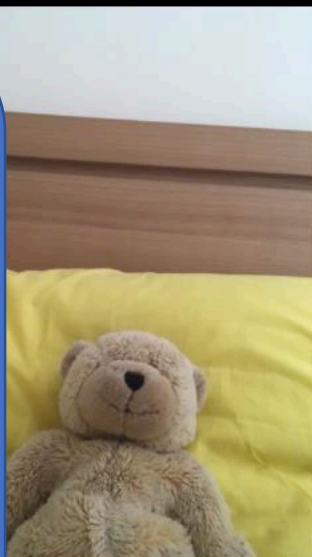

Something like this might happen if you select 'Speaker View' and you can see it change to 'Gallery View' if you want to see more people at the same time

If you want to get really fancy – you can play with the settings by clicking on the ^ to the right of the video camera icon and choose:

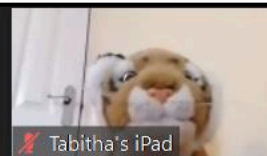

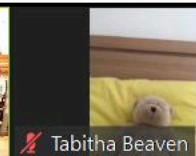

- Choose Virtual Background or,
- Video Settings (there's a lovely 'touch up' feature here!)

Select a Camera
✓ HP Wide Vision HD Camera
Video Settings...
Choose Virtual Background

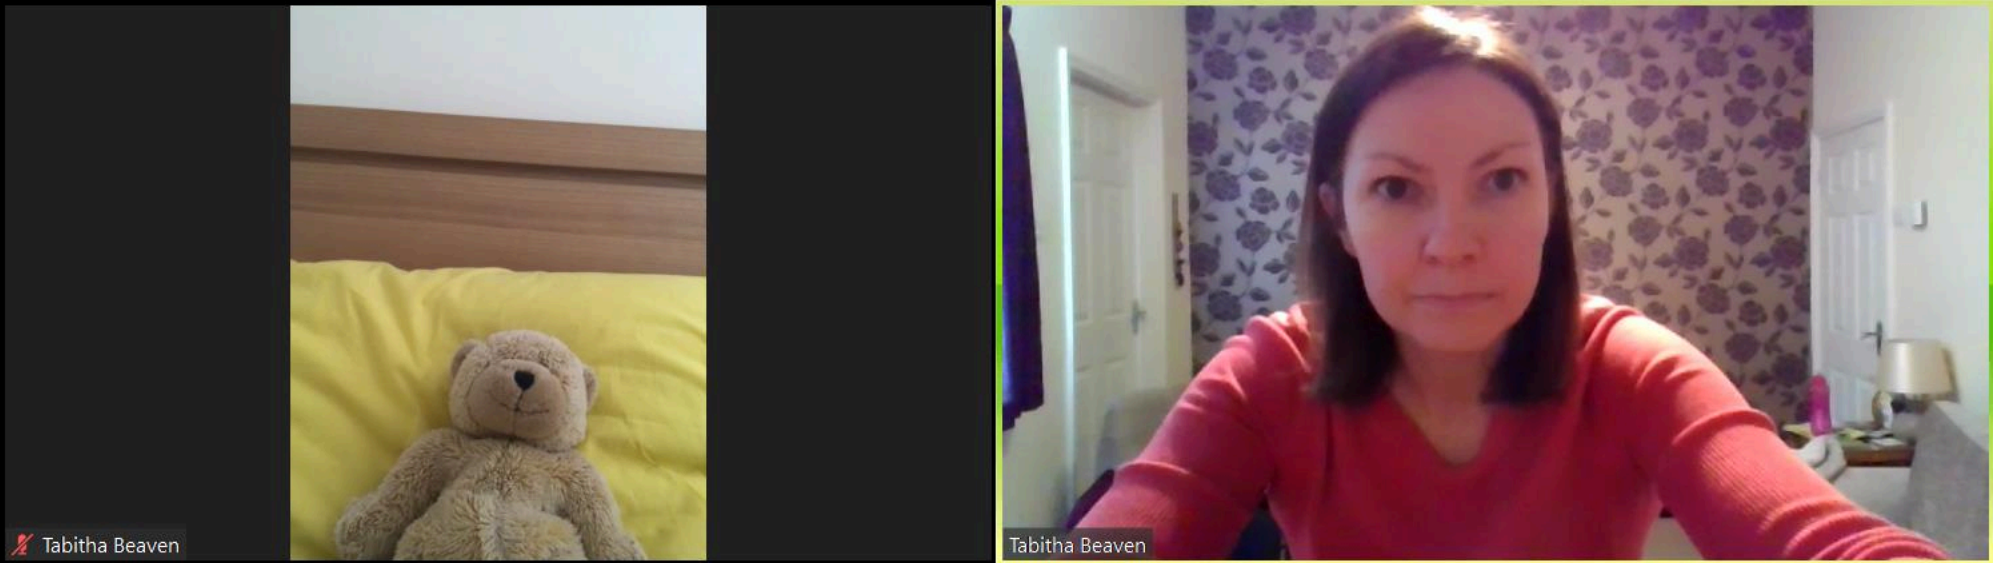

Then like me, you could be surrounded by your Tuneless friends!

Look how happy I am!

Tabitha Beaven

There's a few other things
you can play with... if you
click on 'Manage Participants'
you can...

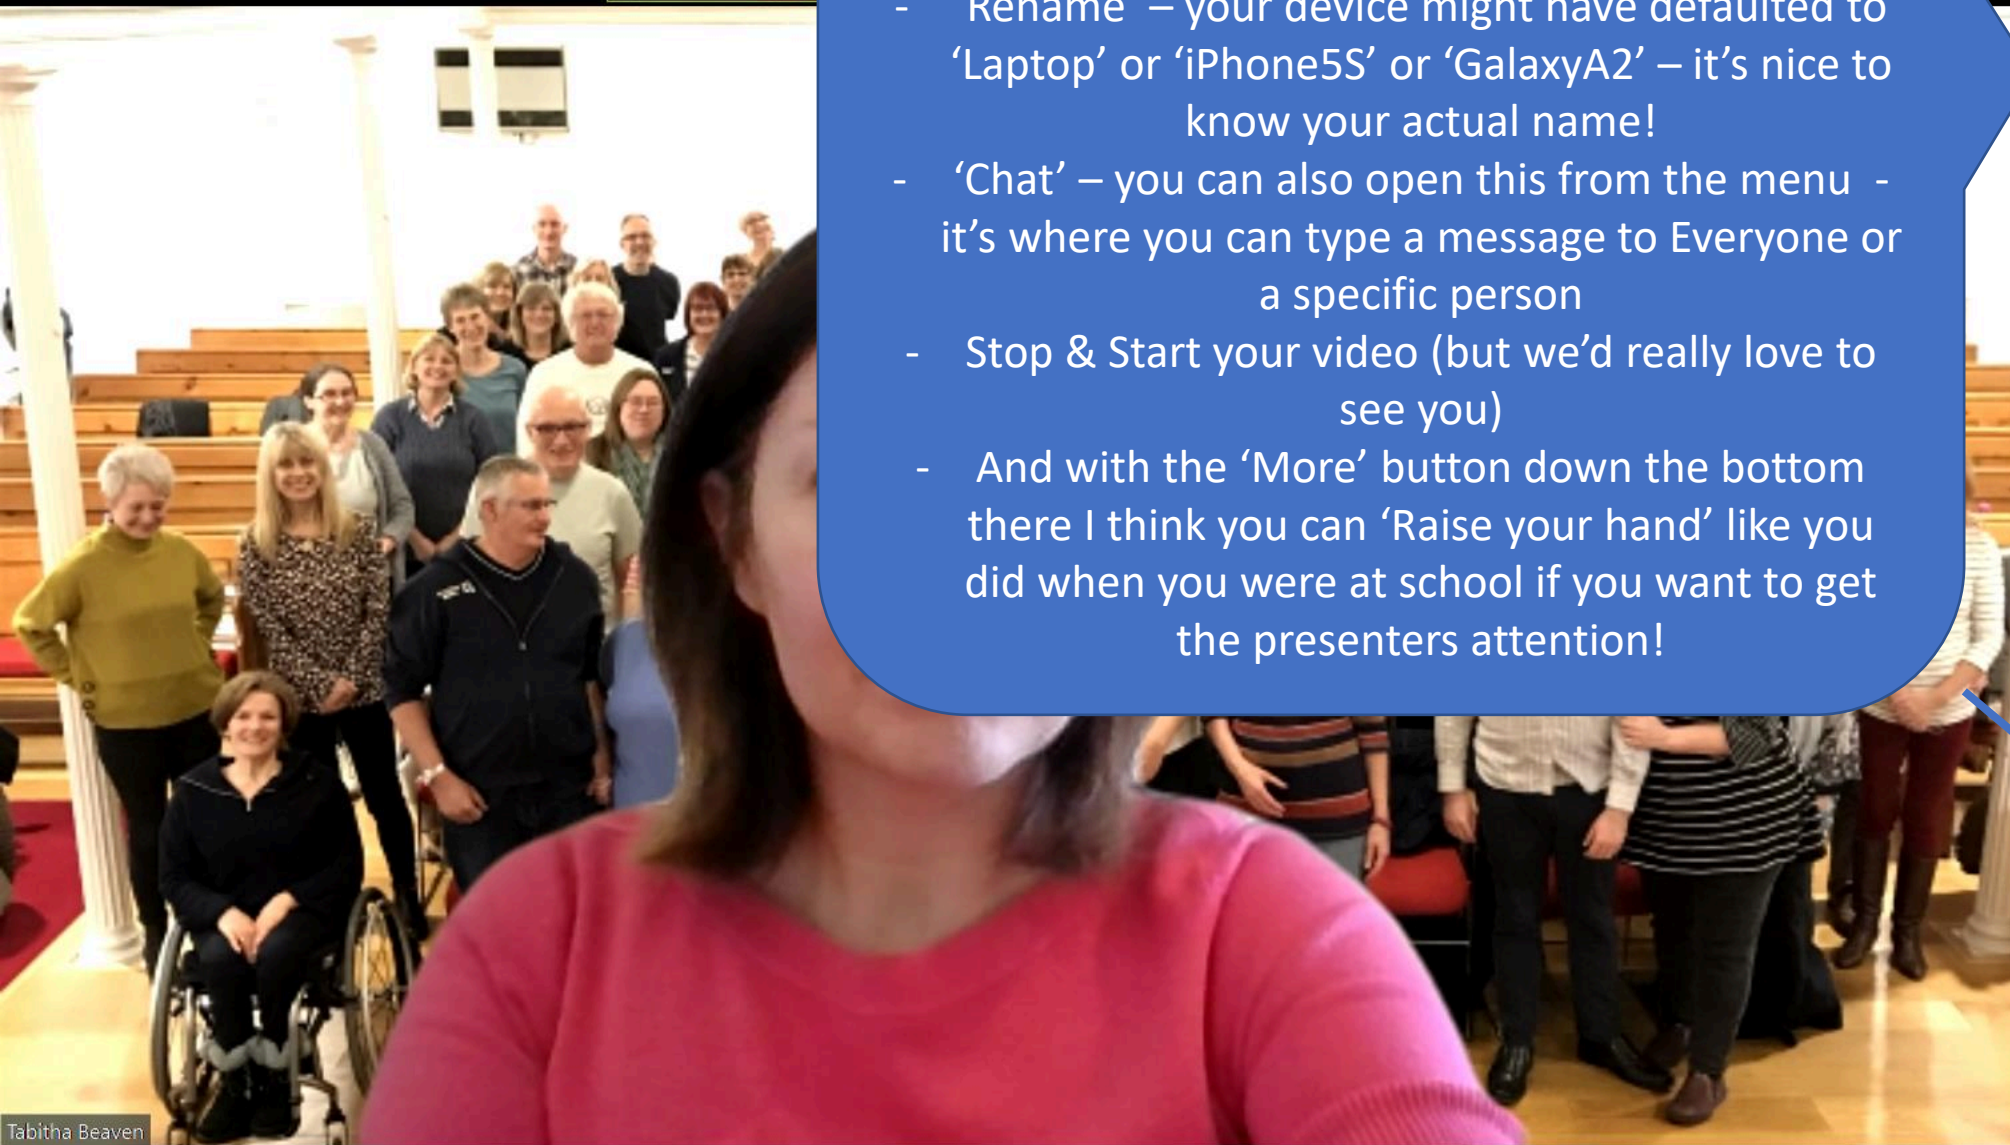

...find yourself in the list (it's unlikely there will be 3 Tabitha's and use the blue buttons to select...

- 'Rename' – your device might have defaulted to 'Laptop' or 'iPhone5S' or 'GalaxyA2' – it's nice to know your actual name!
- 'Chat' – you can also open this from the menu - it's where you can type a message to Everyone or a specific person
- Stop & Start your video (but we'd really love to see you)
- And with the 'More' button down the bottom there I think you can 'Raise your hand' like you did when you were at school if you want to get the presenters attention!

She stood there laughing – ha, ha
I felt the knife in my hand and she

My, my, my Delilah
Why, why, why Delilah
So before they come to break down
Forgive me Delilah I just couldn't t

Forgive me Delilah I just couldn't take any more

You might see something like this when the presenter puts the lyrics up – again there's another little menu at the top of the video bar which lets you choose your view...

- One bar – no video – just lyrics
- Rectangle – just the leader and the lyrics
- Two bars (what you see there, think max 4 at a time)
- And if more teddy bears had joined you would see 4 squares and be able to see a 'Gallery' view

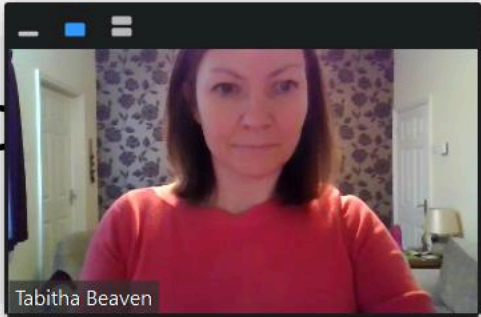

She stood there laughing – ha, ha, ha, ha
I felt the knife in my hand and she laughed no more

My, my, my Delilah
Why, why, why Delilah
So before they come to break down the door
Forgive me Delilah I just couldn't take any more

You can move the chunk of videos around too by clicking on the top black bar and dragging it to wherever you want it.

Forgive me Delilah I just couldn't take any mood

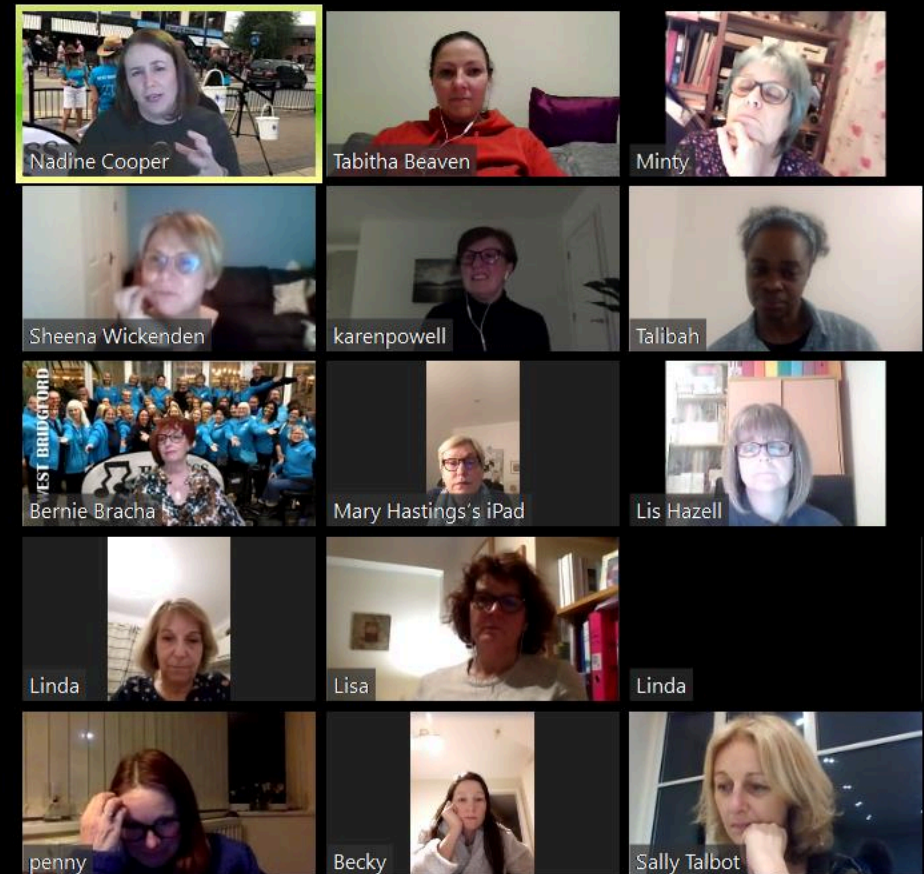

It's also possible to get a 'Split Screen' – so lyrics on the left, people's videos on the right...

To get this, you see the green bar at the top – this will be there if the presenter is 'sharing their screen' e.g. the lyrics – click on the down arrow to the right of 'View Options' and there's an option at the bottom that says something like split screen or 'side by side'

And just take a moment to admire some of our lovely Tuneless Choir leaders and managers!

Example of when you might want to use the 'Rename' function via 'Participants' – although iPad (3) is very welcome too.

And of course if it all gets too much you can always pull the rip cord and click 'Leave Meeting' but remember... with Tuneless, 'You'll never walk alone' ;)
